

Sheldon HS 2021-22 Parking Plan

As Sheldon's student and staff population has grown we have reached a point where we cannot support an open parking lot with unrestricted parking. As a result of this increase in the number of drivers and cars, we now have a restricted and monitored parking procedure. The major features are as follows:

- Priority will be given to students who are seniors and juniors.
- Once passes are sold-out no additional passes will be made available, regardless of your grade. Students wanting to drive will need to make alternate plans for transportation and parking.
 - **PLEASE** be advised that parking at Bi-Mart, Market of Choice, or at the Sheldon Community Center will result in your car being towed. Please do not park at these locations!
- Visitor spaces are marked and reserved for short term use only and **not by students**.
- Maximum number of passes sold per household: 1.

In order for us to maintain a safe environment for both drivers and pedestrians we will have regulations governing the use of motor vehicles on campus. A summary of these is included below. These will be agreed to as a condition for all drivers' use of Sheldon's parking lots.

Regulations: RULES ENFORCED AT ALL HOURS

- Permits are required to park on campus. Violators will be ticketed.
- Permits must be displayed at **ALL** times. They are a hangtag permit and must be displayed from rear view mirror or on dashboard. Campus supervisors will only look for passes in this one location on the car. Violators will be ticketed.
- **Student Cars must be parked in unmarked spaces only- these are designated student spots!** Parking in staff, visitor, KRVM or handicapped spaces, yellow curb zones, fire lanes or fire hydrant zones will result in citations with fines and/or cars being towed at the owner's expense.
- Holding a permit does not reserve a space. All spaces are accessed on a space available basis. Permit sales are limited.
- Parking lot speed is 5 mph.
- Reckless driving is prohibited at all times. Squealing of tires, exiting unsafely into traffic, excessive speed or other unsafe practices is considered reckless driving. Violators may be ticketed and/or privileges revoked!
- The student is responsible for any violations/infractions associated with the permit number assigned to each student driver. All fines must be paid at the Finance Office.
- Vehicles are not to be driven during emergency drills
- In order to maintain accurate records, it is the student driver's responsibility to immediately report any vehicle change information to the finance office.
- **A permit may be revoked, without refund, for the remainder of the year, as a result of violating the rules governing driving and parking on campus.**

Purchasing Procedures:

- The 21-22 Parking contract must be filled out before a permit can be purchased. The form will be posted on the Sheldon Website from 9/5/21-9/10/21. The link to the google form can be found under the student tab or on the Sheldon finance page of the Sheldon website.
 - Students must fill out the google form! Please make sure you are logged into google drive with 4J email.
 - Provide driver's license and the make, model of car and license plate information.
 - Complete application and sign as noted.
- Permits will be available to pick up and purchase the first full week of school in the Finance office.
 - **Students must bring a valid driver license to pick up permit!**
- All permits are \$50 regardless of the date of purchase. This fee must be paid at application.
 - Replacement passes will cost \$5.
- It is the student's responsibility to follow **ALL** of these steps to complete the permit purchase process.

Let's have a safe return to school! Drive Safely and Go Irish!
